**SUBJECT LINE: PMCC Materials Update**

Dear Feedback Network Member,

Follow-up materials to the September 5, 2014 Performance Measures Coordinating Committee (PMCC) meeting are now posted on the Healthier Washington Performance Measures page:

[http://www.hca.wa.gov/shcip/Pages/performance\\_measures.aspx](http://www.hca.wa.gov/shcip/Pages/performance_measures.aspx)

The second Performance Measures Coordinating Committee (PMCC) meeting took place Friday, September 5 from 9:00 am to noon at the Puget Sound Regional Council in Seattle. The committee received an update from the three Common Measures Technical Workgroups (Prevention, Chronic Illness and Acute Care) and gave feedback as well.

Feedback led to discussion on the importance of outcome measures, population health measures and “aspirational” measures, which may or may not have readily accessible data at this time. The Common Measures Technical Workgroups are currently looking at ways to include these measures into the core set. This is an opportunity to influence state-level health targets and move Washington State toward the Triple Aim of better health, better care, and lower costs.

Posted materials include the recording of the webinar, as well as materials from each of the three Common Measures Technical Workgroup’s most recent meetings. Stay tuned for updates regarding the state-level health targets and aspirational measures discussions.

All Performance Measures Coordinating Committee and technical workgroup meetings are open to the public. Please contact us if you are interested in attending.

Thank you for your interest in helping make Washington a healthy place to live, work, and play!

Let us know if you have any questions.
